

Corvette shown with available racing spoiler.

CORVETTE

EVEN WITHOUT A TOP, IT'S OVER THE TOP.

Total exhilaration, with or without a roof. The

Corvette offers one powerful legacy in three

models – coupe, convertible, and

Z06. Coupe and convertible offer

an available 6-speed paddle shift

with automatic modes for quick,

clutchless shifts without ever taking

your hands off the wheel. The 505-hp Z06

is the highest-performance production car in

Chevrolet or GM history. But whichever one you

choose, the look and functionality of your Corvette can be

pushed even further. Genuine Corvette Accessories are

designed for performance and durability to advance the sports

car driving experience.

RACING SPOILER

Give the rear fascia of your Corvette a unique, yet purposeful look with this racing spoiler. It extends across the full length of the rear fascia and is available in black, Machine Silver, Velocity Yellow Tintcoat, Victory Red, and primed.

CAT-BACK EXHAUST SYSTEM*

This cat-back exhaust system empties into four highly polished stainless steel exhaust tips that feature the GCA logo. Tips available separately. Not available on Z06.

CARGO ORGANIZER TRAY

Positioned just behind the seats within reach of the driver and passenger, this cargo organizer tray features multiple compartments with removable rubber mats featuring a Corvette logo. Available on coupe and Z06 only.

BODY GRAPHIC PACKAGE

Available in coupe and convertible versions, these adhesive body graphic packages extend from the hood to the rear deck. Available in silver with red accents, silver with black accents, or black with silver accents.

INTERIOR TRIM KIT

Bring your exterior color inside with this interior trim kit. It includes a center trim plate and twin instrument panel cluster pods. Available in all Corvette exterior colors except Arctic White.

15-SPOKE POLISHED ALUMINUM WHEELS**

For those who crave an even different appearance for your Corvette, try these 15-spoke polished aluminum wheels. They feature the sixth-generation crossed-flags logo on the center cap. Not available on Z06. Interim availability.

*Installation of this part on a vehicle intended for use on public roads may violate federal, state, or local laws and regulations including those relating to emissions and noise requirements and motor vehicle safety standards. Specifically, this exhaust system exceeds the 95 decibel noise limit for exhaust system modifications, as measured by the SAE J1169 test procedure. Some states and localities prohibit exhaust system modifications on vehicles intended for use on public roads that exceed this noise limit.

**Wheel and TPC tire systems are designed as a system and must be used as such.

BODYSIDE MOLDINGS

Add more character to the side-cove area of your Corvette with these body-colored bodyside moldings. Available in black, Machine Silver, Le Mans Blue Metallic, and Victory Red.

UNDER-HOOD COVER WITH LOGO

Show your attention to detail throughout your Corvette. This under-hood cover features the Corvette crossed-flags logo and adds a more refined look. A Z06 version is also available.

EXHAUST TIPS

These stainless steel exhaust tips further enhance the performance appearance of your Corvette.

SIDE-COVE FENDER GRILLE

These fine-screen mesh inserts dress up the side-cove area of your Corvette, providing a more finished, upscale look. Not available on Z06.

TRANSPARENT REMOVABLE ROOF PANEL

This transparent roof panel provides you with an open-air feeling in your Corvette, even with the roof in place. It is produced with the same tooling as the standard Corvette factory panel.

CONVERTIBLE WIND SCREEN

Help minimize air turbulence in the passenger compartment with the top down. Constructed of black aluminum with see-through black mesh, the convertible wind screen features a Corvette logo visible from behind, but not in the rearview mirror.
